

MORE WAYS TO PLAY

THE WORST-CASE SCENARIO CARD GAME

3-6 PLAYERS | AGES 10-ADULT

HELLO, SURVIVOR OF THE NEW WORST-CASE SCENARIO CARD GAME!

If you're reading this, you must have played the game SOOOO many times that you're looking for a new way to play...so here are two options for you:

1) CHANGE THE QUESTION

Instead of players ranking the cards based on "what is the worst case scenario", rank them based on one of these four questions:

- What scenario is the most unusual way to die?
- In what scenario would a friend be most useful?
- What scenario would you brag most about surviving?
- In what scenario would a weapon or tool be most useful?

Not every card will make sense with each question above, so feel free to replace any of the five cards played with a new card before chips are played.

2) ALL OR NOTHING

No need to use The Victim Wheel here. The Victim turns over four worst-case scenario cards (not five) in the middle of the play area. Players will not need their #5 chip. Players must match all four of The Victim's chips to score one point. The Victim gets as many points as the number of players who match all four of The Victim's chips.

If you have other / better ways to play, please share them!
