4-6 players

ages 10-adult

Contents

Gameboard, Box of 110 Cards (featuring 880 Loaded Questions[®]), Answer Pad, Custom Die, 6 Pencils, 6 Custom Game Pieces

Object

Be the first player to reach the WIN space by (a) rolling high, (b) matching players' answers correctly on your turn, and/or (c) writing the "favorite" answer on everyone else's turn.

Set-Up

1. Place the board and box of question cards in the middle of the play area.
2. Select game pieces and place them on the START space.
3. Take an answer sheet and pencil and write your name at the top.
4. Shortest player rolls first. Play moves clockwise.

On Your Turn...

1. Roll the die and move the number of spaces shown.
2. Pick the next card and read aloud one of the questions matching the colored space you're on. **Both sides of the card can be used.**

- If you land on one of these starred spaces, look at all questions from both sides of the card and choose any question to play.

- If you land on one of the two "lucky spots" after rolling the die, advance as shown and play the space you land on. If you land on one of these spaces at the end of a turn, advance as shown and wait until your next turn to roll.

3. All other players (not you) secretly write their personal answers to the question on their answer sheet. **There are no right or wrong answers. Write anything!**

What is something you would love to do every day of your life?

4. All answers are collected, shuffled and read aloud by the player to your right. (You will not see the handwriting, because the player to your right is reading the answers aloud.) After hearing **ALL** of the answers, you must **FIRST** pick your favorite answer and **THEN** guess which player wrote which answer.

- The reader should read aloud the question again and familiarize himself/herself with the answers before reading them aloud.
- Whether you like an answer because it was hilarious, honest, creative or ridiculous, it is up to you in deciding your favorite.
- Players should be discreet when answers are read aloud, and when you are selecting your favorite answer and guessing "who wrote what".

Match **EVERY** answer **BEFORE** learning "who wrote what". Don't simply match one answer at a time.

5. The player to your right reveals which player wrote which answer. You advance one space for every correctly matched answer. The player who wrote your favorite answer advances two spaces on the board. Used cards are placed at the back of the card box. Play moves clockwise.

How To Win

The first player to land on the WIN space wins the game. Players are not required to land on the WIN space with an exact advance. In the unlikely event two players reach the WIN space on the same turn, then both players win the game!

Notes On Play

- There are no right or wrong answers to any Loaded Questions. Just write neatly!
- Players will decide how long a player has to determine an answer.
- Although every turn offers at least two questions to choose from, if you don't like your choices...simply pick any other question on the card. It's just a game!
